

# Complete Device Control

## Simplify Management of Apps & Devices

DeviceGuardian® provides mobile device management, mobile application management, and PC management capabilities from the cloud. Using DeviceGuardian®, organizations can provide their employees with access to corporate applications, data, and resources from virtually anywhere on almost any device, while helping to keep corporate information secure.

# DeviceGuardian

DeviceGuardian® is a tool that is easily installed on any existing or new device allowing ABT to securely manage all of your mortgage software, data, and users without driving up operating expenses and without reducing efficiency. DeviceGuardian® PC and Device Protection makes all of your devices compliant with Consumer Financial Protection Bureau (CFPB) regulations.

## Mobile Device Management

Enrolling devices into management so IT has an inventory of devices that are accessing corporate services. With the control to configure devices to ensure they meet company security and health standards. Live reporting on and measuring device compliance to corporate standards. Removing corporate data from managed devices.

## Internet of Things

based on collective threat intelligence and the benefits of machine learning. By utilizing tens of millions of threat sensors around the world, we can analyze new threats and exploits as fast as cybercriminals launch them, and actively correlate global threat data for up-to-the-minute protection and policy enforcement.

## Trusted Platform Module

A Trusted Platform Module (TPM) is a specialized chip on an endpoint device that stores RSA encryption keys specific to the host system for hardware authentication. TPM chips can be used with any major operating system and work best in conjunction with other security technologies such as firewalls, antivirus software, smart cards and biometric verification.

## Multiple Benefits-One Device Management Solution

ABT fully manages devices online and enforces company policies with comprehensive logging & reporting. Rich encrypted traffic scanning, and web gateway protection, are just the beginning of DeviceGuardian's features. ABT has the ability to wipe lost or stolen devices. DeviceGuardian has deep intelligence to secure web browsing & downloads and stop malicious apps.

## About ABT:

Access Business Technologies, headquartered in Northern California, was founded in 1999 as a leading provider of hosted, on-demand software for mortgage loan origination, servicing and pipeline management. Access Business Technologies (ABT) provides access to business technologies that empower mortgage professionals to safely perform at the top of their game anytime, anywhere. ABT proactively supports, defends and manages game-changing technologies and processes that help mortgage professionals excel.

We are a certified SSAE 16 Type II cloud solution provider to over 500 mortgage financial institutions. We are partnered with nearly a dozen leading mortgage software vendors. Our partnerships with the best mortgage software in the world integrate our cloud suite of products, to empower your workforce to produce more loans safely anywhere and anytime.
