APSPAYS Vault

The APSPAYS Vault is fully integrated within the Sage software, allowing you to store customer payment credentials for future use. APSPAYS Vault is a 100% PCI-DSS compliant gateway with many reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

The screenshot shows the APS Payments Sage integration interface. On the left is a navigation menu with options: CREDIT CARDS, RECURRING, CUSTOMER VAULT, INVOICES, SOFTWARE, and OTHER SERVICES. The main area displays a 'Transaction Report' for the period 01/01/2019 12:00 AM To 01/04/2019 11:59 PM. The report includes a table with columns for Type, Status, ID, and Amount.

Type	Status	ID	Amount
Card Sale	Approved	4455865290 PMT-001402	20.00
Card Sale	Approved	4456059634 1234 4456611876	90.00

Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business saves \$18,000 per year by providing the comprehensive level 3 data requirements. APS Payments Sage integrations will automatically send the required data for you, to ensure quick payments at lower costs.

Easy Payments with iSales from xkzero

iSales 100 provides advanced mobile sales capability for outside sales reps and other mobile users. It is exclusively engineered for Sage 100. All of the data management is done directly within Sage 100 with seamless integration into the APS Payments omni-channel payment processing solution. iSales is available on the Apple App store and can be downloaded directly onto iPhone, iPad and iPod Touch devices.

Drive secure communications between the mobile user and the back office systems. All users are managed and permissions assigned directly in Sage 100, making iSales 100 a snap to learn and roll out. Plus, the unlimited device and user license model means no extra ongoing fees as you grow.

Every Business. Every Payment.
