Chargeback Portal

The standard method of receiving chargebacks through snail mail or fax can be unreliable and slow. Never miss the dates you need to respond by for your chargeback cases with the MerLink Chargeback Portal. Easily view your cases online, receive convenient notifications, and even upload documents to submit a response online within minutes, for only a small assessed fee.

Discounted Lodging Rates

APS Payments understands the lodging industry and uses our knowledge to best fit the needs of hoteliers and hospitality merchants. We can guide you to the correct gateways needed to pass lodging data points. Our systems will automatically check for factors that can result in savings – such as using a stand-alone terminal with a lodging program to qualify transactions for the correct lodging rates.

EMV

If you have card-present transactions, APS Payments can provide you a fully integrated EMV credit card terminal with your property management system/PMS. This will eliminate the need for double entry, lower chargeback risk, and lower transaction fees.

Every Business. Every Payment.
