## ●●● Elevate Dispute Dashboard

The standard method of receiving chargebacks through snail mail or fax can be unreliable and slow. Never miss chargeback response dates using the Elevate Dispute Dashboard. Detailed chargeback information is provided, tracking each step of the process from start to finish. The Dashboard also offers visibility into each chargeback status and the tools for responding.

## ●●● Discounted Lodging Rates

REPAY understands the lodging industry and uses our knowledge to best fit the needs of hoteliers and hospitality merchants. We guide you to the correct gateways needed to pass lodging data points. Our systems will automatically check for factors that can result in savings – such as using a stand-alone terminal with a lodging program to qualify transactions for the correct lodging rates.

## ●●● EMV

If you have card-present transactions, REPAY can provide your business with a fully integrated EMV credit card terminal. Eliminate the need for double entry, lower chargeback risk and lower transaction fees.

## Schedule a Discovery Call

You need a processor that can guide you to what works best for you. With REPAY, you will always know that we are working to provide the right solution for your business.
