## APSPAYS Vault

The APSPAYS Vault is fully integrated within the Magento software, allowing you to store customer payment credentials off of your own server for future use. APSPAYS Vault is a PCI-DSS compliant gateway with many reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

The screenshot shows the APSPAYS Payments dashboard. On the left is a navigation menu with options: CREDIT CARDS, RECURRING, CUSTOMER VAULT, INVOICES, SOFTWARE, and OTHER SERVICES. The main content area shows a 'Transaction Report' for the period 01/01/2019 12:00 AM To 01/04/2019 11:59 PM. The report is a table with columns for Type, Status, ID, and Amount.

Type	Status	ID	Amount
Card Sale	Approved	4455865290 PMT-001402	20.00
Card Sale	Approved	4456059634 1234	90.00
		4456511826

up to 43%

## Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business **saves \$18,000 per year** by providing the comprehensive level 3 data requirements. The APS Payments Magento integration will automatically send the required data for you, to ensure quick payments at lower costs.

## Hosted Form via secure iFrame

Our Magento-ready hosted form via iFrame is perfect for developers, partners, and merchants to adopt as a part of their payment processing solution. The APS Payments solution was designed to seamlessly integrate with the Magento payments page to sit on our servers and process level 3 data at significantly lower rates. This hosted form captures customer information and collects sensitive cardholder data, reducing your PCI-DSS scope. Protect yourself from security breaches and heavy fines while providing an easy to use payment option for customers.

Easily configure the look and feel of the hosted form to suit your needs. Our in-house development team is standing by to walk you through the process today.

The screenshot shows a checkout page for 'Veronica Costello' with a modal window titled 'Enter Payment'. The modal contains fields for 'Credit Card Number', 'Expiration (MMYY)', and 'CVW', along with a 'Submit' button. The background shows a checkout form with fields for 'Fax', 'VAT Number', and 'Payment Method'.
