REPAY Vault

The REPAY Vault is seamlessly integrated within the Magento software, allowing you to store customer payment credentials off of your own server for future use. REPAY Vault is a PCI/DSS compliant gateway with multiple reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

Type	Status	ID	Amount
Card Sale	Approved	4455865290 PMT-001402	20.00
Card Sale	Approved	4456059634 1234	90.00
		4456059634	

Level 3 B2B Rates

Level 3 processing allows you to receive discounted rates on Visa® and Mastercard® B2B transactions. Level 3 transactions use lower interchange rates than Level 1 and Level 2 transactions. Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus pricing plan. The Magento integration from REPAY automatically sends the required data to ensure maximum cost savings for B2B transactions.

Hosted Form via secure iFrame

Our Magento-ready hosted form via iFrame is perfect for developers, partners, and merchants to adopt as a part of their payment processing solution. The REPAY solution was designed to seamlessly integrate with the Magento payments page to sit on our servers and process level 3 data at significantly lower rates. This hosted form captures customer information and collects sensitive cardholder data, reducing your PCI/DSS scope. Protect yourself from security breaches and heavy fines while providing an easy to use payment option for customers.

Easily configure the look and feel of the hosted form to suit your needs. Our in-house development team is standing by to walk you through the process today.
