

Sage 100 Enhancements

Integrated Payment Processing with Multi-currency Helps You Go Global

Integrated and Flexible Payment Processing

Work seamlessly within the business systems you already use to avoid manual entry and reduce error with an integrated payment processing solution.

- Tokenized credit card data simplifies PCI Compliance
- Daily, automatic batch reporting
- Level 3 Processing
- Multi-currency capable
- ClickToPay integrated invoice portal
- ACH and ClickToPay Direct
- No installation, maintenance, or setup fees
- 24/7 live support

Faster Funding. Fewer Fees.

Credit card and payment processing are just a small part of the APS Payments solutions-driven model. We leverage insider knowledge to secure the best rates and minimize chargebacks for our partners and merchants. If you do not understand your bill, we will educate you on how you are currently priced.

Partner-centric
Approach

APS Payments works diligently to get you the lowest credit card processing rates, reduce your risk, and provide the best solutions for your business. Batch processing, seamless integrations, and automation tools such as recurring billing increase your business' efficiency and improve cash flow. From multiple payment methods to multiple currencies, we provide trustworthy service for every business and every payment. What's more, we do this all at a negative cost to your company. When it comes to payments, don't settle for less than APS!

APS Payments and
Multi-currency from
DSD work seamlessly
together for Sage 100.

Free Merchant Statement Audit

You need a processor that can guide you to what works best for you. With APS Payments, you will always know that we are working to provide the right solution for your business.

APSPAYS Vault

The APSPAYS Vault is fully integrated within the Sage software, allowing you to store customer payment credentials for future use. APSPAYS Vault is a 100% PCI-DSS compliant gateway with many reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

Save
up to 43%

Type	Status	ID	Amount
Card Sale	Approved	4455865290 PMT-001402	20.00
Card Sale	Approved	4456059634 1234	90.00

Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business saves \$18,000 per year by providing the comprehensive level 3 data requirements. APS Payments Sage integrations will automatically send the required data for you, to ensure quick payments at lower costs.

ClickToPay + ClickToPay Direct

APS ClickToPay is a simple and secure way to have invoices paid directly from Sage 100 to your customers. You simply send a copy of the invoice via email, your customer opens the email, and selects which payment method they would like to use. ClickToPay allows your customer to create a profile and save their card or bank account information on file for future payments. When ClickToPay is enabled and Multi-currency is installed and enabled you will be given the option on which currency you wish to download:

Global Payments for Sage 100

Multi-currency was developed by DSD for Sage 100 for international and multinational companies that transact business in multiple currencies. The latest versions of APS Payments with APS ClickToPay supports true multicurrency processing with C/X Multi-Currency (CUMC). You will have one gateway account to handle multiple merchant accounts to streamline reconciliation. When DSD Multi-currency is installed, you will select the Multi-currency enabled box in Company Maintenance. APS Payments will specify the gateway processor to use for the currency. By doing this, one Sage 100 company can correctly process multiple currencies in the most cost-effective method possible by using a separate processor for each currency.
