

SAGE

Expert B2B Payment Processing

••• Easy. Powerful. Integrated.

Simplify the way payments are processed within your Sage software. Easily integrated payment solutions from REPAY reduce the time your business spends manually processing and recording payments, while limiting errors and simplifying reconciliation.

••• Anytime, Anywhere Payment Acceptance

Integrating payment solutions enables business customers to utilize omni-channel payment solutions, including credit card, ACH, online portal and ClickToPay, to make payments outside of business hours without needing to contact customer service. 24/7 digital payment flexibility simplifies the payment process to drive on-time payments and reduce time spent reconciling late payments.

Level 3 processing

Multi-currency support

ClickToPay invoice capabilities

Card and ACH processing

24/7 live support

Realtime Electronic Payments

B2B Processing Made Better

Accepting payments from business customers doesn't have to deplete your bottom line. We support discounted rates on Visa® and Mastercard® B2B transactions by automatically sending Level 3 transaction data so those transactions qualify at lower interchange rates, reducing expenses.*

*Merchants wanting to receive Level 3 processing rates must be on an Interchange Plus pricing plan.

Secured by the REPAY Vault

Customer payment credentials are securely saved within the Sage software through the REPAY vault. This allows you to safely store payment data using a PCI DSS compliant gateway along with tokenization and encryption tools for enhanced protection.

ClickToPay

ClickToPay offers a simple and secure way to have invoices paid directly from the Sage software. The customer opens the invoice from their email and selects their preferred payment method to pay using credit card or ACH. ClickToPay securely saves payment data for faster future payments.

One size does not fit all. That's why we customize solutions to fit your needs.
