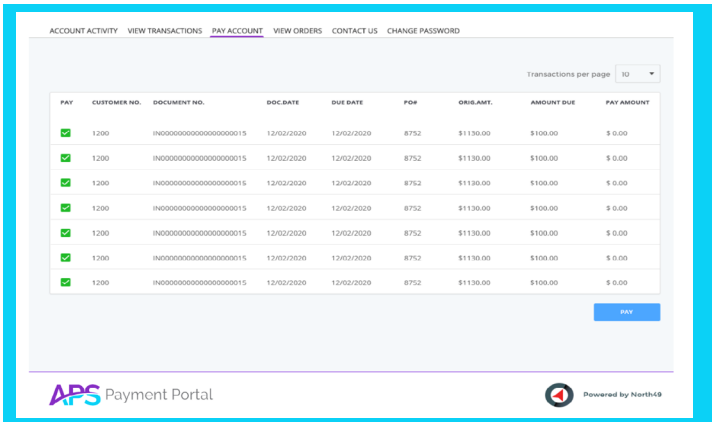
APS PAYMENTS + NORTH49

APS Payments and North49 help you get paid faster in Sage 300.

APS Payment Portal



Payment Portal

APS Payment Portal powered by North49 is a simple and secure way to have your customers pay invoices with the click of a button from Sage 300. You simply send a copy of the invoice via email, your customer opens the email, and selects which payment method they would like to use. The Payment Portal also allows your customer to create a profile and save their card or bank account information on file for future payments without storing the data on your server.

Our exclusive APSDirect functionality reduces chargeback replies to 72 hours for B2B transactions while allowing your customers to easily make secure transfers directly through Sage 300.

APS PAYMENTS

Every Business. Every Payment.
