

Technical Consultant Sheffield, UK

We are looking for an experienced Technical / Implementation Consultant to join our software delivery team. This is a great opportunity for a talented professional with experience of implementing cloud based software solutions, who is keen to develop their career in a rapidly growing and exciting technology space.

We are looking for a highly motivated individual who can work on multiple projects simultaneously in a fast paced environment. Typical projects are 20-80 days in effort and delivered using the Agile methodology. The Technical Consultant will lead on the definition of customer requirements and then contribute to the project delivery of the software implementation projects.

Essential Skills and Experience

- Demonstrable experience of the successful delivery of cloud based software solutions.
- Salesforce.com / Force.com platform experience / exposure.
- Can demonstrate a track record of working with software development teams and good understanding of the SDLC.
- Good business analysis, requirements gathering and analytical skills, ability to distill customer requirements into the appropriate level of detail and produce Statements of Work / Requirements Specifications.
- Ability to facilitate workshops and stakeholder requirements gathering meetings.
- Strong problem solving and analytical skills and the ability to understand the technical implications of client decisions and requests.
- Detail-oriented, with a high-level of curiosity and creative thinking.
- Ability to prioritise work assignments and manage multiple concurrent assignments.
- Ability to deliver multiple small to medium sized projects simultaneously to enterprise level organisations.
- Good customer facing skills with strengths in communication and developing and maintaining positive relationships with clients.
- Adept at delivering quality results in a fast paced, changing environment to meet or exceed customer expectations.
- Fosters effective teamwork including information sharing and knowledge transfer.
- Willing to travel with occasional client site working and overnight stays if required.

Desirable Skills and Experience

- Ideally Risk Management / Compliance Management domain experience.
- Educated to degree level or equivalent.
- Relevant professional qualification.

Benefits

One of the things that our employees say is great about working at Xactium is that they get to work with technically excellent people in a fun and collaborative environment. We also offer some great perks:

- Competitive salary.
- Annual salary reviews.
- 25 days holiday, plus buy or sell 3 days and 8 bank holidays.
- An extra day's holiday on your birthday.
- Annual bonus from the company's profit share scheme.
- Eligibility to join the company stakeholder pension scheme (upon successful completion of a probationary period).
- Contributory pension scheme.
- A MacBook.
- Good training opportunities.
- Flexible working.
- Cake Wednesdays & free fruit.

About Xactium

Xactium is an innovative and inspiring software development company, who deliver enterprise applications using the latest cloud computing technologies on the Force.com platform. Force.com is the world's most successful cloud application development platform, with over 4 million users and over 250,000 customers.

Based in Nether Edge, Sheffield, our company is focused on delivering innovative Force.com applications related to enterprise and project risk management solutions. Our clients include global enterprise companies and organisations such as Homeserve, Petrofac, JLT insurance, Direct Line Group and the Financial Conduct Authority. We were also a key supplier to the London Olympic Games and are a Games Supporter of the 2017 Special Olympics GB National Summer Games.
