

# UltimateAir®

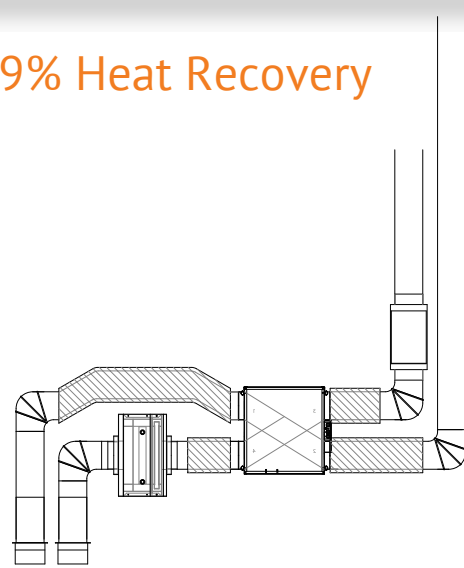

## Ventilation for Your Passive House

### Whole House Ventilation With Up to 99% Heat Recovery

99% Heat Recovery Efficiency  
Third-Party Tested CAN/CSA-C439-09

Standard laboratory methods of testing  
for the performance of energy-recovery  
ventilators

MERV 12 Filtration  
High Efficiency Brushless Motors  
Designed & Made In the USA since 1989  
Less than 0.8 Watt/CFM

*Current PHPP Inputs are NOT based on Actual Tested Performance*

**Model 200DX:**

PHPP Heat Recovery Efficiency----- 86%  
Efficiency Humidity Recovery----- 43%  
Electric Efficiency-----0.72 watt/cfm

**Model ER80M:**

PHPP Heat Recovery Efficiency----- 87%  
Efficiency Humidity Recovery----- 43%  
Electric Efficiency-----0.72 watt/cfm
