

About the company

AlertID, Inc. provides AlertID, a social platform that helps in reducing crime while improving safety and security for children, families, businesses, schools, agencies, non-government organizations, enterprises and communities.

AlertID

Business Challenge

- Legacy Titanium app with poor performance.
- Needed a team to update existing application and provide performance analysis.
- Highly crippled existing user experience and lack of good practices on UI design.

iTexico Service

- iOS/Android App AlertID Mobile

Solutions

- Restructured and optimized existing code to radically improve performance.
- Implemented best practices for easier future updates.
- Carefully designed a new UI using Apple's and Google's best practices and guidelines.
