

Right Talent Right Time

The Secret Sauce for your Nearshore+ Team

Do You Have the Right Team to Innovate Today?

60% of CEO's recognize that they lack the right skilled talent to innovate their business.

Hiring the right skilled talent locally is a blocker to capturing new markets, expanding your brand, and growing your business.

Take a look at these insights that will help you reduce the risk when selecting the best Nearshore+ Partner.

What's Delivered Vs. What Innovators Need

Many executives think that lower cost, distant talent is the only option when they decide their outsourcing partner. iTexico Nearshore+ breaks that paradigm. American companies can more easily work with their IT teams in Mexico.

Digital Innovation with Multidisciplinary Nearshore+ Software Teams

iTexico offers end-to-end software development services that help companies innovate and grow their businesses.

- 1 Teams
Readily available skilled talent pool with high retention rates.
- 2 Results
The focus is on results, productivity, quality - not just process.
- 3 Speed
Teams are launched rapidly within 2-5 days.
- 4 Accountability
Scorecards tailored to your success criteria.
- 5 Verified Quality
Teams supported by internal and external quality measurements.
- 6 Security Built-In
Your teams are supported by security tailored to your needs.

Competency Centers for Innovation

Quote 01

Work Hard Have Fun

"I cannot stress enough what a relief it has been to work with a team that has a high skill set, understands their roles..."

Dave J. Desmarais
President & Co-Founder - Endore

Quote 02

"We are getting really good feedback and interest after our first Demo at the ARA. The additional enhancements will only make our App that much more in demand."

Gamiel Gran
VP Business Development - Appcelerator

Quote 03

"I worked closely with Appcelerator's sales and professional services teams to jointly win & deliver outstanding applications for some of our most important customers."

Chanda Martin, Wynne Systems

Quote 04

"I could not be happier. My app was developed as precisely as I had envisioned it in my head."

James Alderson
CEO - OnSight PROS

Capabilities to Innovate Faster

Your business is a dynamic, evolving organization, so it makes sense for your software to adapt and grow with your company and not remain static. Partner with a stellar software development team today!

	Design	Mobile	.NET	Java	Javascript	DevOps	AI	QA
# Technologies	7	9	11	16	12	8	10	12
# Experts	8	13	35	27	53	3	3	37

Beyond the Distant Shores

Today executives have many options to find the right talent, but there is no better time than **RIGHT NOW** to find the right Nearshore+ software development partner right next door. Sharing the same border, greater cultural fit, improved communication, and convenience **ALL** while being cost-competitive.
