

# Redefine Payment Integrity.

**Absolute Insight revolutionizes healthcare payment integrity and fraud detection.**

Investigate, manage and empower program integrity with Absolute Insight. Navigating claims and building cases has never been easier now that Alivia Analytics pairs proprietary algorithms and user friendly artificial intelligence. A No-Code Query Builder and intuitive dashboards bring artificial intelligence to the masses revolutionize investigation and improve compliance.

Overcome and outsmart fraud, waste and abuse with *Absolute Insight's* advanced features and straightforward interface that puts program integrity in control of payment integrity.

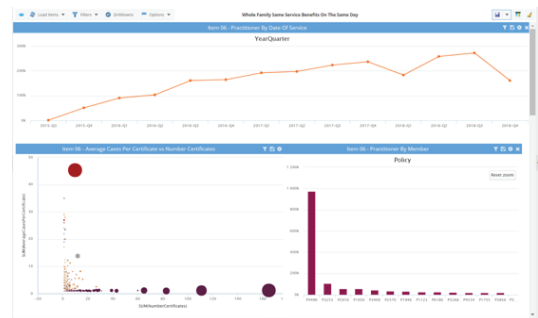

View outlier groups

**Investigate:** Proprietary algorithms target outlier claims and display them through custom dashboards to make results easily consumable.

**Manage:** Workflow and task managers make it easy for program integrity leaders to track investigations and assign projects to investigators, creating a comprehensive and productive environment for payment recovery and national compliance.

**Empower:** Artificial intelligence is made accessible and empowers program integrity to ask the questions they want to get the answers they need. At the same time, it organizes enterprise-wide data silos for investigators to see the entire picture.

Build custom dashboards to unveil fraud.

# Rethink Healthcare Analytics.

Discover value in data to make informed healthcare business decisions using powerful insights.

## Data Science + Analytics

Alivia Analytics combines data science, analytics and usability to produce a powerful, comprehensive solution called *Absolute Insight* to reduce fraud, waste and abuse and improve healthcare.

## Medical Pros + Technical Experts

Alivia Data Scientists produce proprietary algorithms, using years of subject matter expertise to dive deeply into claims data and discover outliers to combat the burdens of fraud and improve compliance in audits. By harmonizing data silos across the enterprise, Alivia Analytics finds connections and relations in data and displays these findings produce dashboards that give program integrity teams the power to investigate cases and leverage technology.

## Artificial Intelligence + Revenue Management

Seasoned entrepreneurs, Alivia Analytics' roots are in revenue management and creating scalable business solutions that leverage artificial intelligence. *Absolute Insight* redefines the standard of fraud detection and lets public insurers analyze and prioritize claims to improve per case ROI and reduce fraud.
