An Enterprise Solution Fit For Any Size Practice

No matter the size of your practice, client documentation can get backlogged and incorrectly transcribed, leading to big problems even for a small practice. Today's large legal practices are at an even greater risk for these types of issues, resulting in non-compliance and inadequate billing.

Dragon Legal Group Can Help your Legal Practice

Avoid these Issues by Offering the Following Benefits:

99% accuracy from a vocabulary of over 400 million words pulled from legal documents

Saves time and money on transcription costs by allowing users to instantaneously create client documentation and eliminates human error during the transcription phase

Easy deployment throughout your legal practice that allows you to measure and manage the software on multiple desktops with the help of the Nuance User Management Center

Easy document sharing allows you and your support staff access to client documentation so you can spend less time searching for paperwork and more time with clients

Flexible licensing programs that are budget friendly for both large and small legal practices
