

Technology Integration

Christ In Us is perfect for today's busy lives. This unique, blended catechetical solution seamlessly integrates print and online resources with program messaging tools to flexibly meet the diverse needs of schools and parishes. Support children as they encounter Christ at every step along their faith journey.

- Seamlessly integrate Student Editions and Guides with powerful online resources to meet the needs of parishes, schools, and families.
- Access online tools and resources that support engagement and ease communication between catechists and families.

Discover a Complete Catechetical Solution for School and Parish

Catechist formation is embedded into the program, occurring before and after each unit and lesson.

Program adaptability is seamless with built-in models for school, parish, family, at-home, intergenerational, liturgical, and summer school.

Flexible lesson-planning tools let catechists and teachers prep anywhere at any time.

Customizable resources provide choices for directors, catechists and teachers, families, and children.

A robust digital portfolio supports creativity and witness with innovative tasks that challenge disciples to transfer what they've learned to their own lives.

Meaningful assessments and assignments monitor program participation and ensure accountability.

Features to adapt the lesson for inclusion offer point-of-use options to make each experience equitable for children with special needs.
