## Counting and Cardinality

## Kindergarten Standards for Mathematical Content

A. Know number names and the count sequence.

| K.CC.A. 1 | Count to 100 by ones and by tens. |
| :--- | :--- |
| K.CC.A. 2 | Count forward beginning from a given number <br> within the known sequence (instead of having to <br> begin at 1). |
| K.CC.A.3 | Write numbers from 0 to 20. Represent a number <br> of objects with a written numeral 0-20 (with 0 <br> representing a count of no objects). |

## B. Count to tell the number of objects.

| K.CC.B. 4 | Understand the relationship between numbers <br> and quantities; connect counting to cardinality. |  |
| :--- | :--- | :--- |
| K.CC.B.4a | a. | When counting objects, say the number <br> names in the standard order, pairing each <br> object with one and only one number name <br> and each number name with one and only <br> one object. |
| K.CC.B.4b | b. | Understand that the last number name said <br> tells the number of objects counted. The <br> number of objects is the same regardless of <br> their arrangement or the order in which they <br> were counted. |
| K.CC.B.4c | c. | Understand that each successive number <br> name refers to a quantity that is one larger. |

| Lesson 33 | Count and Model 17 and 18-pp. 155-158 |

## Counting and Cardinality

## Kindergarten Standards for Mathematical Content

## K.CC.B. 5 Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 120 , count out that many objects.

| Lesson 35 | Count and Model 19 and 20—pp. 163-166 |
| :---: | :---: |
| Lesson 1 | Count and Model 1 and 2—pp. 11-14 |
| Lesson 2 | Count and Write 1 and 2-pp. 15-18 |
| Lesson 3 | Count and Model 3 and 4-pp. 19-22 |
| Lesson 4 | Count and Write 3 and 4-pp. 23-26 |
| Lesson 5 | Count and Model 0 and 5-pp. 27-30 |
| Lesson 6 | Count and Write 0 and 5-pp. 31-34 |
| Lesson 8 | Count and Model 6 and 7-pp. 39-42 |
| Lesson 9 | Count and Write 6 and 7-pp. 43-46 |
| Lesson 10 | Count and Model 8,9 and 10—pp. 47-50 |
| Lesson 11 | Count and Write 8, 9, and 10-pp. 51-54 |
| Lesson 12 | Count to Compare-pp. 55-58 |
| Lesson 13 | Count to Tell How Many-pp. 59-62 |
| Lesson 27 | Count and Model 11 and 12-pp. 131-134 |
| Lesson 28 | Count and Write 11 and 12-pp. 135-138 |
| Lesson 29 | Count and Model 13 and 14-pp. 139-142 |
| Lesson 30 | Count and Write 13 and 14-pp. 143-146 |
| Lesson 31 | Count and Model 15 and 16-pp. 147-150 |
| Lesson 32 | Count and Write 15 and 16-pp. 151-154 |
| Lesson 33 | Count and Model 17 and 18-pp. 155-158 |
| Lesson 34 | Count and Write 17 and 18-pp. 159-162 |
| Lesson 35 | Count and Model 19 and 20-pp. 163-166 |
| Lesson 36 | Count and Write 19 and 20-pp. 167-170 |
| Lesson 37 | Make and Break Apart 11 to 19—pp. 171-174 |

## Counting and Cardinality

## Kindergarten Standards for Mathematical Content

## C. Compare numbers.

K.CC.C. $6 \quad$| Identify whether the number of objects in one |
| :--- |
| group is greater than, less than, or equal to the |
| number of objects in another group, e.g., by using |
| matching and counting strategies. |

'Include groups with up to ten objects.

Sadlier Progress Mathematics, Kindergarten

| Lesson 7 | Match to Compare—pp. 35-38 |
| :--- | :--- |
| Lesson 12 | Count to Compare-pp. 55-58 |

Lesson 14 Compare Numbers-pp. 63-66

## Operations and Algebraic Thinking

## Kindergarten Standards for Mathematical Content

A. Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.
K.OA.A. 1 Represent addition and subtraction up to 10 with objects, fingers, mental images, drawings, ${ }^{2}$ sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations.
${ }^{2}$ Drawings need not show details, but should show the mathematics in the problem. (This applies wherever drawings are mentioned in the Standards.)

| K.OA.A. 2 | Solve addition and subtraction word problems, <br> and add and subtract within 10, e.g., by using <br> objects or drawings to represent the problem. |
| :--- | :--- |
| K.OA.A. 3 | Decompose numbers less than or equal to 10 into <br> pairs in more than one way, e.g., by using objects <br> or drawings, and record each decomposition by a <br> drawing or equation (e.g., $5=2+3$ and $5=4+1$ ). |
| K.OA.A. 4 | For any number from 1 to 9, find the number that <br> makes 10 when added to the given number, e.g., <br> by using objects or drawings, and record the <br> answer with a drawing or equation. |
| K.OA.A. 5 | Demonstrate fluency for addition and subtraction <br> within 5. |

Sadlier Progress Mathematics, Kindergarten

| Lesson 16 | Put Together to Add—pp. 79-82 |
| :--- | :--- |
| Lesson 17 | Add to Find How Many—pp. 83-86 |
| Lesson 19 | Take Away to Subtract—pp. 91-94 |
| Lesson 20 | Subtract to Find How Many Left—pp. 95-98 |
| Lesson 18 | Problem Solving: Addition—pp. 87-90 |
| Lesson 21 | Problem Solving: Subtraction-pp. 99-102 |
| Lesson 22 | Break Apart Numbers to 5—pp. 103-106 |
| Lesson 24 | Break Apart Numbers to 10-pp. 115-118 |
| Lesson 26 | Make Ten-pp. 119-122 |
| Lesson 23 | Addition: Sums to 5 (Fluency)—pp. 107-110 |
| Lesson 24 | Subtract: From 5 or Less (Fluency)—pp. 111- |

Number and Operations in Base Ten

Kindergarten Standards for Mathematical Content
B. Work with numbers 11-19 to gain foundations for place value.
K.NBT.B. 1 Compose and decompose numbers from 11 to 19 into ten ones and some further ones, e.g., by using objects or drawings, and record each composition or decomposition by a drawing or equation (such as $18=10+8$ ); understand that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones.

## Measurement and Data

Kindergarten Standards for Mathematical Content
A. Describe and compare measurable attributes.

| K.MD.A. 1 | Describe measurable attributes of objects, such as <br> length or weight. Describe several measurable <br> attributes of a single object. |
| :--- | :--- |
| K.MD.A. 2 | Directly compare two objects with a measurable <br> attribute in common, to see which object has <br> "more of"/"less of" the attribute, and describe the <br> difference. For example, directly compare the <br> heights of two children and describe one child as <br> taller/shorter. |
| B. Classify objects and count the number of |  |
| Objects in each category. |  |

Lesson 40 Compare Measurements—pp. 191-194

Lesson 41 Sort and Count—pp. 195-198

## Geometry

## Kindergarten Standards for Mathematical Content

A. Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres).

| K.G.A. 1 | Describe objects in the environment using names <br> of shapes, and describe the relative positions of <br> these objects using terms such as above, below, <br> beside, in front of, behind, and next to. |
| :--- | :--- |
| K.G.A.2 | Correctly name shapes regardless of their <br> orientations or overall size. |
| K.G.A.3 | Identify shapes as two-dimensional (lying in a <br> plane, "flat") or three-dimensional ("solid"). |
| B. Analyze, compare, create, and compose |  |
| shapes. | Analyze and compare two and three-dimensional <br> shapes, in different sizes and orientations, using <br> informal language to describe their similarities, <br> differences, parts (e.g., number of sides and <br> vertices/"corners") and other attributes (e.g., <br> having sides of equal length). |
| K.G.B. 4 |  |

| Lesson 44 | Compare Flat Shapes—pp. 215-218 |
| :--- | :--- |
