Sadlier Progress Mathematics, Grade 1, Aligned to the South Carolina College- and Career-Ready Standards for Mathematics Grade 1

## Number Sense and Base Ten

| Standards |  | Sadlier Progress Mathematics, Grade 1 |  |
| :---: | :---: | :---: | :---: |
| The student will: |  |  |  |
| 1.NSBT. 1 | Extend the number sequence to: |  |  |
|  | a. count forward by ones to 120 starting at any number; | Lesson 11 | Count to 120—pp. 96-103 |
|  | b. count by fives and tens to 100 , starting at any number; | Lesson 13 | Understand Place Value: Tens and Ones (count by tens)—pp. 112-119 |
|  |  |  | *See Grade 2: Lesson 7, Skip Count by 5s, 10s, and 100s-pp. 64-71 |
|  | c. read, write and represent numbers to 100 using concrete models, standard form, and equations in expanded form; | Lesson 12 | Read and Write Numbers—pp. 104-111 |
|  | d. read and write in word form numbers zero through nineteen, and multiples of ten through ninety. | Lesson 12 | Read and Write Numbers—pp. 104-111 |
| 1.NSBT. 2 | Understand place value through 99 by demonstrating that: |  |  |
|  | a. ten ones can be thought of as a bundle (group) called a "ten"; | Lesson 13 | Understand Place Value: Tens and Onespp. 112-119 |
|  | b. the tens digit in a two-digit number represents the number of tens and the ones digit represents the number of ones; | Lesson 13 | Understand Place Value: Tens and Onespp. 112-119 |
|  | c. two-digit numbers can be decomposed in a variety of ways (e.g., 52 can be decomposed as 5 tens and 2 ones or 4 tens and 12 ones, etc.) and record the decomposition as an equation. | Lesson 13 | Understand Place Value: Tens and Onespp. 112-119 |
| 1.NSBT. 3 | Compare two two-digit numbers based on the meanings of the tens and ones digits, using the words greater than, equal to, or less than. | Lesson 14 | Compare Numbers-pp. 120-127 |
| 1.NSBT. 4 | Add through 99 using concrete models, drawings, and strategies based on place value to: |  |  |
|  | a. add a two-digit number and a one-digit number, understanding that sometimes it is necessary to compose a ten (regroup); | Lesson 15 | Add Two-Digit Numbers-pp. 128-135 |
|  | b. add a two-digit number and a multiple of 10. | Lesson 15 | Add Two-Digit Numbers-pp. 128-135 |
|  |  | Lesson 16 | Find 10 More and 10 Less-pp. 136-143 |

Sadlier Progress Mathematics, Grade 1, Aligned to the
South Carolina College- and Career-Ready Standards for Mathematics
Grade 1
Number Sense and Base Ten

| STANDARDS |  |
| :--- | :--- |
| 1.NSBT. 5 | Determine the number that is 10 more or 10 less <br> than a given number through 99 and explain the <br> reasoning verbally and with multiple <br> representations, including concrete models. |
| 1.NSBT. 6 | Subtract a multiple of 10 from a larger multiple of <br> 10, both in the range 10 to 90, using concrete <br> models, drawings, and strategies based on place <br> value. |

## Sadlier Progress Mathematics, Grade 1

Lesson 16 Find 10 More and 10 Less-pp. 136-143

Lesson 17 Subtract Multiples of 10—pp. 144-161

## Algebraic Thinking and Operations

| StANDARDS |  |
| :--- | :--- |
| The student will: |  |
| 1.ATO.1Solve real-world/story problems using addition (as <br> a joining action and as a part- part-whole action) <br> and subtraction (as a separation action, finding <br> parts of the whole, and as a comparison) through <br> 20 with unknowns in all positions. |  |
| 1.ATO.2Solve real-world/story problems that include three <br> whole number addends whose sum is less than or <br> equal to 20. |  |
| 1.ATO.3Apply Commutative and Associative Properties of <br> Addition to find the sum (through 20) of two or <br> three addends. |  |
| 1.ATO.4Understand subtraction as an unknown addend <br> problem. |  |
| 1.ATO.5Recognize how counting relates to addition and <br> subtraction. |  |
| 1.ATO. 6 | Demonstrate: |

a. addition and subtraction through 20;
b. fluency with addition and related subtraction facts through 10.
1.ATO. 7 Understand the meaning of the equal sign as a relationship between two quantities (sameness) and determine if equations involving addition and subtraction are true.

Sadlier Progress Mathematics, Grade 1

| Lesson 1 | Problem Solving: Addition—pp. 10-17 |
| :--- | :--- |
| Lesson 2 | Problem Solving: Subtraction—pp. 18-25 |
| Lesson 3 | Problem Solving: Addition of Three <br> Numbers—pp. 26-33 |
| Lesson 4 | Apply Properties of Operations-pp. 34- <br> 41 |
| Lesson 5 | Relate Addition and Subtraction Facts- <br> pp. 42-49 |
| Lesson 6 | Relate Counting to Addition and <br> Subtraction—pp. 50-57 |
| Lesson 7 | Addition and Subtraction Facts to 10 <br> (fluency)-pp. 58-65 |
| Lesson 8 | Addition and Subtraction Facts to 20-pp. <br> 66-73 |
| Lesson 7 | Addition and Subtraction Facts to 10 <br> (fluency)—pp. 58-65 |
| Addition and Subtraction Equations—pp. <br> $74-81$ |  |

Sadlier Progress Mathematics, Grade 1, Aligned to the South Carolina College- and Career-Ready Standards for Mathematics Grade 1

## Algebraic Thinking and Operations

| StANDARDS |  |
| :--- | :--- |
| 1.ATO. 8 | Determine the missing number in addition and <br> subtraction equations within 20. |
| 1.ATO. 9 | Create, extend and explain using pictures and <br> words for: |
| a. repeating patterns (e.g., AB, AAB, ABB, and ABC <br> type patterns); |  |
| b. $\quad$growing patterns (between 2 and 4 <br> terms/figures). |  |

## Geometry

| STANDARDS |  |
| :--- | :--- |
| The student will: |  |
| 1.G.1 | Distinguish between a two-dimensional shape's <br> defining (e.g., number of sides) and non-defining <br> attributes (e.g., color). |
| 1.G.2 | Combine two-dimensional shapes (i.e., square, <br> rectangle, triangle, hexagon, rhombus, and <br> trapezoid) or three-dimensional shapes (i.e., cube, <br> rectangular prism, cone, and cylinder) in more than <br> one way to form a composite shape. |
| 1.G.3 | Partition two-dimensional shapes (i.e., square, <br> rectangle, circle) into two or four equal parts. |
| 1.G.4 | Identify and name two-dimensional shapes (i.e., <br> square, rectangle, triangle, hexagon, rhombus, <br> trapezoid, and circle). |

Sadlier Progress Mathematics, Grade 3

Lesson 23 Identify Shapes-pp. 208-215

| Lesson 24 | Two-Dimensional Shapes—pp. 216-223 |
| :--- | :--- |
| Lesson 25 | Three-Dimensional Shapes—pp. 224-231 |

Lesson 26 Equal Shares—pp. 232-239

Lesson 24 Two-Dimensional Shapes—pp. 216-223

## Sadlier Progress Mathematics, Grade 1

Lesson 18 Compare and Order Lengths—pp. 162-169

Sadlier Progress Mathematics, Grade 1, Aligned to the
South Carolina College- and Career-Ready Standards for Mathematics
Grade 1

## Measurement and Data Analysis

| StANDARDS |  |
| :--- | :--- |
| 1.MDA. 2 | Use nonstandard physical models to show the <br> length of an object as the number of same size <br> units of length with no gaps or overlaps. |
| 1.MDA. 3 | Use analog and digital clocks to tell and record <br> time to the hour and half hour. |
| 1.MDA. 4 | Collect, organize, and represent data with up to 3 <br> categories using object graphs, picture graphs, t- <br> charts and tallies. |
| 1.MDA. 5 | Draw conclusions from given object graphs, <br> picture graphs, t-charts, tallies, and bar graphs. |
| 1.MDA. 6 | Identify a penny, nickel, dime and quarter and <br> write the coin values using a $\not \subset ~ s y m b o l . ~$ |

## Sadlier Progress Mathematics, Grade 1

## Lesson 19 Measure Length in Length Units—pp. 170177

Lesson 20 Tell Time—pp. 178-185

Lesson 22 Use Tables—pp. 194-207

Lesson 22 Use Tables—pp. 194-207

Lesson 21 Money—pp. 186-193
