OPERATIONS AND ALGEBRAIC THINKING

2.**OA**

Grade 2 Content Standards

Sadlier Math, Grade 2

Represent and solve problems involving addition and subtraction.

2.OA.1 Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.

Chapter 1: 1-1, 1-2, 1-7 & 1-9

Chapter 2: 2-1 through 2-3, 2-10 & 2-12

Chapter 4: 4-8 & 4-9

Add and subtract within 20.

2.0A.2 Fluently add and subtract within 20 using mental strategies.² By end of Grade 2, know from memory all sums of two one-digit numbers.

Chapter 1: 1-3 through 1-10 Chapter 2: 2-2, 2-4 through 2-1

Work with equal groups of objects to gain foundations for multiplication.

2.0A.3 Determine whether a group of objects (up to 20) has an odd or even number of members, e.g., by pairing objects or counting them by 2s; write an equation to express an even number as a sum of two equal addends.

Chapter 10: 10-1 & 10-2

2.0A.4 Use addition to find the total number of objects arranged in rectangular arrays with up to 5 rows and up to 5 columns; write an equation to express the total as a sum of equal addends.

Chapter 10: 10-3 through 10-5

²See standard 1.OA.6 for a list of mental strategies.

NUMBER AND OPERATIONS IN BASE 1	TEN 2.NBT	
Grade 2 Content Standards	Sadlier Math, Grade 2	
Understand place value.		
2.NBT.1 Understand that the three digits of a three-digit number represent amounts of hundreds, tens, and ones; e.g., 706 equals 7 hundreds, 0 tens, and 6 ones. Understand the following as special cases:		
a. 100 can be thought of as a bundle of ten tens — called a "hundred."	Chapter 7: 7-1	
b. The numbers 100, 200, 300, 400, 500, 600, 700, 800, 900 refer to one, two, three, four, five, six, seven, eight, or nine hundreds (and 0 tens and 0 ones).	Chapter 7: 7-1	
2.NBT.2 Count within 1000; skip-count by 5s, 10s, and 100s.	Chapter 3: 3-5 Chapter 7: 7-5	
2.NBT.3 Read and write numbers to 1000 using base-ten numerals, number names, and expanded form.	Chapter 3: 3-1 & 3-2 Chapter 7: 7-2 through 7-4	
2.NBT.4 Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using >, =, and < symbols to record the results of comparisons.	Chapter 7: 7-6 & 7-7	
Use place value understanding and properties of operations to add and subtract.		

Use place value understanding and properties of operations to add and subtract.

2.NBT.5 Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.	Chapter 1: 1-1 through 1-10 Chapter 2: 2-1 through 2-12 Chapter 4: 4-1 through 4-10 Chapter 5: 5-1 through 5-9
2.NBT.6 Add up to four two-digit numbers using strategies based on place value and properties of operations.	Chapter 4: 4-1 through 4-10

2.MD

NUMBER AND OPERATIONS IN BASE TEN		2.NBT
Grade 2 Content Standards	Sadlier Math, Grade 2	
2.NBT.7 Add and subtract within 1000, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method. Understand that in adding or subtracting three-digit numbers, one adds or subtracts hundreds and hundreds, tens and tens, ones and ones; and sometimes it is necessary to compose or decompose tens or hundreds.	Chapter 1: 1-1 through 1-10 Chapter 2: 2-1 through 2-11 Chapter 4: 4-1 through 4-9 Chapter 5: 5-1 through 5-8 Chapter 7: 7-8 Chapter 8: 8-1 through 8-8 Chapter 9: 9-1 through 9-9	
2.NBT.8 Mentally add 10 or 100 to a given number 100–900, and mentally subtract 10 or 100 from a given number 100–900.	Chapter 8: 8-1 Chapter 9: 9-1	
2.NBT.9 Explain why addition and subtraction strategies work, using place value and the properties of operations. ³	Chapter 5: 5-7 Chapter 8: 8-2 through 8-8 Chapter 9: 9-2 through 9-9	

Measure and estimate lengths in standard units

Grade 2 Content Standards

MEASUREMENT AND DATA

2.MD.1 Measure the length of an object by		
selecting and using appropriate tools such as		
rulers, yardsticks, meter sticks, and measuring		
tapes.		

- **2.MD.2** Measure the length of an object twice, using length units of different lengths for the two measurements; describe how the two measurements relate to the size of the unit chosen.
- **2.MD.3** Estimate lengths using units of inches, feet, centimeters, and meters.

Chapter 6: 6-7

Chapter 6: 6-1 through 6-5

Chapter 6: 6-1 through 6-6

Sadlier Math, Grade 2

 $^{{}^{\}scriptscriptstyle 3}\textsc{Explanations}$ may be supported by drawings or objects.

MEASUREMENT AND DATA

2.MD
Sadlier Math, Grade 2
Chapter 6: 6-8 & 6-9
Chapter 6: 6-9 & 6-10
Chapter 6: 6-11 & 6-12
Chapter 12: 12-9 through 12-12
Chapter 12: 12-1 through 12-8
Chapter 11: 11-1 & 11-2

Sadlier School

MEASUREMENT AND DATA	2.MD
Grade 2 Content Standards	Sadlier Math, Grade 2
measurements of the same object. Show the measurements by making a line plot, where the horizontal scale is marked off in whole-number units.	
2.MD.10 Draw a picture graph and a bar graph (with single-unit scale) to represent a data set with up to four categories. Solve simple puttogether, take-apart, and compare problems using information presented in a bar graph.	Chapter 11: 11-3 through 11-7
GEOMETRY	2.G

CLOTILIKI		
Grade 2 Content Standards	Sadlier Math, Grade 2	
Reason with shapes and their attributes.		
2.G.1 Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. ⁵ Identify triangles, quadrilaterals, pentagons, hexagons, and cubes.	Chapter 13: 13-1 through 13-4	
2.G.2 Partition a rectangle into rows and columns of same-size squares and count to find the total number of them.	Chapter 14: 14-1	
2.G.3 Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words <i>halves, thirds, half of, a third of</i> , etc., and describe the whole as two halves, three thirds, four fourths. Recognize that equal shares of identical wholes need not have the same shape.	Chapter 14: 14-2 through 14-4	

⁵Sizes are compared directly or visually, not compared by measuring.
