# Empower Your Team with Quality Professional Development

Sadlier values you and is invested in your success! Our comprehensive professional learning services—in person and virtual—provide your team with a deep knowledge of effective strategies and instructional practices to implement our programs. Choose from three types of sessions:

## 1. Training of Trainers (TOT)

Prepare your staff to train their colleagues on Sadlier products or build classroom teachers' and specialists' product expertise.

## 2. Product In-Service

Delve into a product's research basis, standards-based framework, and instructional elements. Hands-on practice is provided, and, if desired, a model lesson can be taught, tailored to the school's instructional day, pacing guides, and lesson plan format. Specific guidance for the school population is also provided, e.g., meeting the needs of English language learners.

## 3. Follow-Up, Focused Training, or Coaching

After In-Service, ensure teachers are building product expertise in the content, instructional practices, and technology through targeted professional learning sessions that address your specific needs.
