

Get To Know You

Give each student a pencil and a *Get To Know You* Bingo card.

On the *Get To Know You* Bingo cards each box has a personal statement, (i.e., has long brown hair). The objective of the game is for students to find a classmate that fits each personal statement.

Students will move around the classroom trying to find a classmate that fits the description in each square. When a student finds a classmate, they must write his or her name in the square. Players can only use another classmate once on their card.

The game is over when someone collects a name for every box OR, after everyone has completed their bingo card, you can begin reading aloud the names of your students—they would need to cross off a name when it is called. If they get five in a row, they win!

Go meet your classmates!

Fill in the boxes below with the name of one of your classmates that fits the description in the box. You can only use your classmate's name once on your game card.

Plays a musical instrument	Has two dogs	Is left handed	Enjoys reading books	Can whistle loudly
