Grade 1 Content Standards	Sadlier Math, Grade 1
---------------------------	-----------------------

**Cluster 1: Represent and solve problems involving addition and subtraction.**

<p><b>MAFS.1.OA.1.1</b> Use addition and subtraction within 20 to solve word problems<sup>1</sup> involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem (<sup>1</sup>Students are not required to independently read the word problems.)</p> <p><i>Cognitive Complexity:</i> Level 2: Basic Application of Skills &amp; Concepts</p>	<p><b>Chapter 1: 1-1 through 1-4, 1-7</b>  <b>Chapter 2: 2-5 through 2-7</b>  <b>Chapter 3: 3-1 through 3-5</b>  <b>Chapter 4: 4-6 through 4-9</b>  <b>Chapter 8: 8-2 through 8-6, 8-8</b>  <b>Chapter 9: 9-2 through 9-5, 9-7 &amp; 9-9</b></p>
<p><b>MAFS.1.OA.1.2</b> Solve word problems that call for addition of three whole numbers whose sum is less than or equal to 20, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.</p> <p><i>Cognitive Complexity:</i> Level 2: Basic Application of Skills &amp; Concepts</p>	<p><b>Chapter 2: 2-1 &amp; 2-2</b>  <b>Chapter 8: 8-7</b></p>

**Cluster 2: Understand and apply properties of operations and the relationship between addition and subtraction.**

<p><b>MAFS.1.OA.2.3</b> Apply properties of operations as strategies to add and subtract. <i>Examples: If <math>8 + 3 = 11</math> is known, then <math>3 + 8 = 11</math> is also known. (Commutative property of addition.) To add <math>2 + 6 + 4</math>, the second two numbers can be added to make a ten, so <math>2 + 6 + 4 = 2 + 10 = 12</math>. (Associative property of addition.)</i></p> <p><i>Cognitive Complexity:</i> Level 2: Basic Application of Skills &amp; Concepts</p>	<p><b>Chapter 1: 1-5</b>  <b>Chapter 2: 2-1</b>  <b>Chapter 3: 3-7</b>  <b>Chapter 4: 4-3</b>  <b>Chapter 8: 8-2 through 8-7</b>  <b>Chapter 9: 9-2 through 9-6</b></p>
