Office 365 is your HIPAA compliant office in the cloud.

Office 365

≋vcpi

When purchasing Office 365, you receive an always up-to-date version of the full Office desktop applications, including:

Office 365

At its heart are the familiar Office applications businesses use everyday, now offered as a cloud service, so it's always up to date and available across devices.

But Office 365 is so much more! It's about bringing enterprise-grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

How you benefit with vcpi

The end-to-end support you need, from the technology leader dedicated to LTPAC We specialize in serving the LTPAC market and solving its unique business challenges to better enable you to provide quality care to your residents and patients. Your satisfaction and success are our top priority.

Fully managed migration Speed up access to Office 365 with fully managed implementation, migration from current email environment, and training.

Active user management Automate employee access management with vcpi's user provisioning system.

Ongoing management and support Secure devices, protect against security threats and get support when you need it with vcpi's email hygiene and policy-based encryption, 24x7 service desk support for all issues, mobile device management, endpoint security suite, Office 365 backup, and endpoint backup.

Your complete office, protected

Protect and control your data Ensure secure, reliable access to information while remaining HIPAA compliant.

Get your work done anywhere Help caregivers make more informed decisions with faster access to patient data.

Be prepared for the unexpected Provide uninterrupted care with built-in resiliency and recovery capabilities.

Work together easily Collaborate with your team from virtually any location.

Office 365 and the cloud changes how companies use IT

Reduce your capital expenditure Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving from capital to operating expense.

License per user Simplify licensing while providing each user access on up to 5 devices*, including PCs, Macs, and mobile devices. Save money when compared to traditional per-device licensing.

Scale your business quickly Office 365 grows with you—adding a new user is as simple as buying an additional license.

Stay up to date Because Office 365 is in the cloud, it's always up to date. No patches or upgrades necessary.

Not available with all plans.
