Sure-Chek® Healthcare Fabrics

Sure-Chek® brand medical fabrics are the original healthcare fabrics that were patented for use as protective covering fabrics and today are the standard in the industry. Sure-Chek® healthcare fabrics were developed in cooperation with healthcare professionals to provide fabrics that are comfortable, safe and effective for use in:
- Healthcare Facilities
- Acute Care
- Long Term Care
- Prison Industries
- Jails
- Camps
- Dormitories
- Rehab Products

Sure-Chek® brand medical fabrics are enhanced by a controlled release system, which enables the “slow release” of a specifically formulated antimicrobial system to the fabric surface, lasting for the life of the medical fabric. Herculite’s original patented technology, revolutionary at the time, was known as Staph-Chek® and was later renamed Sure-Chek®.

Functional performance properties are:
- Fluid Proof
- Antimicrobial to protect the fabric - good for the life of the fabric
- Strong
- Antistatic - good for the life of the fabric
- Hypoallergenic
- Stain Resistant
- Easy to Maintain
- Comfortable

For maximum service life and performance of Sure-Chek® fabrics:
- Soils and stains: Use neutral soap suds and lukewarm water. Rinse with water and allow to dry. Do not use harsh cleansers, solvents or detergents.
- Hard to clean spots: Use standard household/vinyl cleaners and/or soft bristle brush for troublesome spots or stains. Pre-soak heavy, dried-on soil.
- Disinfection: Dilute disinfectants and/or germicides as specified on the product label. Do not use in concentrations that exceed those recommended by the manufacturer.
