

PROBLEM

HOW EFFECTIVELY ARE YOU USING MOISTURE MEASUREMENT TECHNOLOGY ON YOUR MOL BEDS?

A MORE RELIABLE SOLUTION

GE EXTENSIVE
MOISTURE MEASUREMENT
PRODUCT LINE

**BAKER
HUGHES**
a GE company

Channel Partner

THE IMPACT OF UNRELIABLE TECHNOLOGY:

- Erratic measurements
- Moisture level off – can corrode pipelines and gas handling equipment
- Excess water – can shorten lifespan of equipment due to possible freeze-ups
- Utilize the wrong technology – one size does not fit all

BENEFITS:

- TechStar will apply the right product for you – one size does not fit all
- Easy to configure and operate
- Reliable and accurate measurements
- Turnkey installation

OPTIMIZE YOUR NATURAL GAS DRYING PROCESS WITH TECHSTAR
