

# The Technology Roadmap Game Plan

## Step 1: Identify Goals

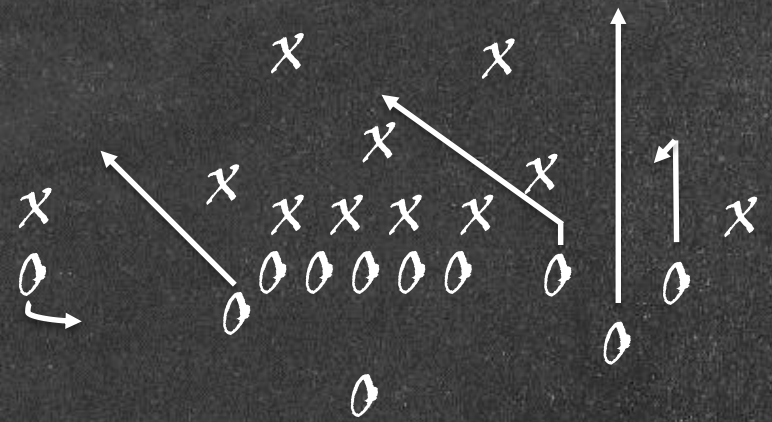

- What will the roadmap accomplish?
- What changes will you make to the IT environment?

## Step 2: Account for Innovation

- What will the cutting edge technology be at the end of the roadmap?
- Will advanced technology today be obsolete tomorrow?

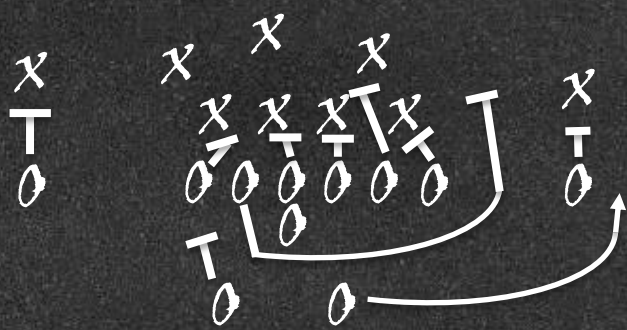

## Step 3: Identify Stages and Arrange Priorities

- What are the projects needed to reach your goal?
- What is the best order to tackle these projects?

## Step 4: Cost Analysis and Review

- Can you afford it?
- What needs to change to keep the roadmap in budget?

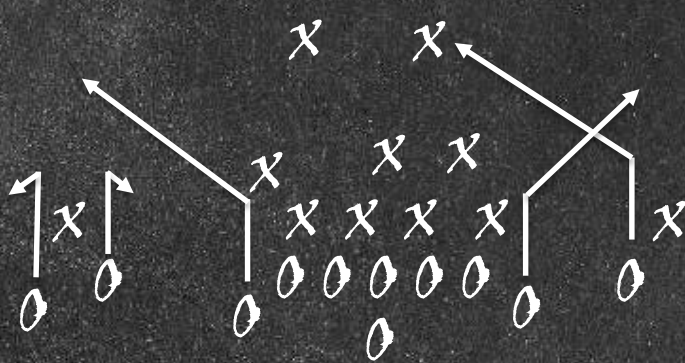

## Step 5: Timelines

- How long will each project take?
- Will there be overlap?

## Step 6: Assign Personnel

- Who on the team is best suited for each project?
- Do you have the skills in-house to reach your goals?
